

## CORRECTION

Mr. Chen published a review article with Prof. Lu Li from the Institute of Social and Family Medicine as coauthor and my person as last author (*A systematic review: how to choose appropriate health-related quality of life (HRQOL) measures in routine general practice? J Zhejiang Univ Sci B. 2005; 9:936-40*). Contrary to international conventions of publication ethics and behaviour rules, neither Mr. Chen nor Prof. Li asked or informed me about submitting and publishing such a paper nor did they give me the prior opportunity to see and contribute to the work. I would like to retract my name from this paper which has been published in your journal in 2005.
