

Anniversary Celebrations

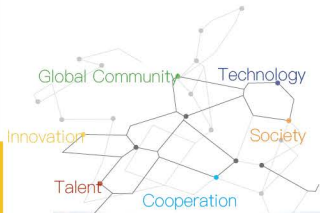

Grand festive celebrations were held at the 120th anniversary of ZJU.

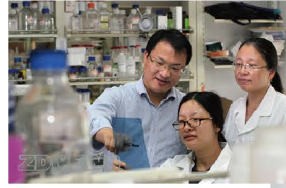

Urban landmarks, including the Empire State Building in New York, were glowing with ZJU blue.

ZJU hosted the University Presidents Summit in May.

Research and Service

Research findings by ZJU scientists appeared on *Nature*, *Science* and *Cell*, advancing our knowledge of immunology, cell biology, and neurobiology, etc.

With donations from We Doctor Group, ZJU will build the first open medical AI platform in China.

China's first National Engineering Laboratory for Waste Incineration Technology and Equipment was set up at ZJU.

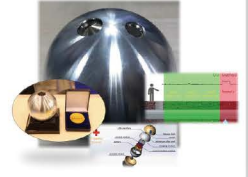

The provincial Zhejiang Lab, of which ZJU is a key founding member, was inaugurated and aims to become a world-class innovation base.

- September -

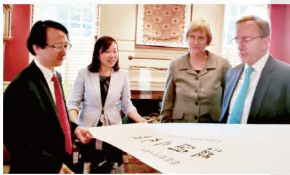

A New Journey

During the ZJU-UChicago Academic Week in April, the enriching dialogues turned out to be, as students said, "exactly what they need".

The ZJU-Stanford Academic Week in June saw the birth of a joint health lab between the two universities.

ZJU President WU Zhaohui visited top universities in North America in October.

October saw the grand opening of ZJU's International Campus, a new model of transnational education.
