Feedback

The summer school is educational, interactive and informative, connecting us with professors and students worldwide. I've also gained much insight into saving our planet.

- Kiryowa Idrisa, India

The Opening ceremony presented to me for the first time how the metaverse platform could be used. Certainly, I am looking forward to working in similar environments.

- Bruno Cesarec, Croatia

Global Research Immersion Program for Young Scientists (Grips)

Organizers

- Zhejiang University
- University of Science and Technology of China
- Fudan University
- Nanjing University

Highlights

- Elite, multi-disciplinary research experience with leading professors from four top Chinese universities
- Exciting glimpse of China through the Yangtze River Delta, home to eight world heritage sites and a jewel in the crown of China's economic transformation
- Enriching industry visits to innovative enterprises such as DEEP Robotics, Hello Bike, Sinopec Nanjing Engineering and Nexchip Semiconductor Corporation

The poster features a central map of the Yangtze River Delta region with labels for Hefei, Nanjing, Shanghai, and Hangzhou. Above the map are the logos of the four organizing universities: Zhejiang University, University of Science and Technology of China, Fudan University, and Nanjing University. Below the map, it states 'June - August 2024'. The poster also includes images of university buildings and laboratory equipment.
